

Neera Sugar Crystals

Salient features

- All the nutrients available in neera would be retained in crystals
- Neera sugar crystals are highly rich in minerals like Potassium, Magnesium, Iron and Sodium as compared to cane sugar

Advantages

- ✓ Shelf life of crystal would be greater than liquid neera
- ✓ Process method supports farmers, entrepreneurs and process industries to make neera sugar crystals
- ✓ Value addition to coconut neera, helps in shelf life and also supplies nutrition

Process of Neera sugar granules

Process

Dr. R. Mahendran (PI/Contributor Name),

Technology / Product

Associate Professor, Centre of Excellence for Non-thermal Processing, Indian Institute of Food Processing Technology; Email: mahendran@iifpt.edu.in
